My experience with the latest visit was great! Everyone was no nice. Kerri explained everything to me like no one ever did before at any dental office and took good care while cleaning. Dr. Rawcliffe was great to interact with. They're definitely using all the latest technology and state of the art machines. Going to stick with them for years to come and recommend for anyone in the area. Thank you for such a great experience, Prairie star team!

I went to Prairie Star dental as a new patient today. I chose this office because of the high ratings it's receive and great reviews. (and they're in network with my Dental provider). I think I had the best cleaning ever. Dr. Rawcliffe was very personable and thorough in his exam and helped prioritize my treatment plan. I go back in a couple of weeks for some work. I feel comfortable that all will go well!!!

Bethany is truly the best hygienist I've ever had. I have a small mouth and every hygienist I've had before comments on it and makes me feel super self conscious, but Bethany has never mentioned it. She's gentle, thorough, and she doesn't ask awkwardly timed questions that are hard to answer with tools in my mouth. My husband and I have both been very happy with this dental office.

If you want all of your dental needs in a one stop shop, Prairie star dental is the office that you would want. I've had very poor teeth and I have been to multiple dental offices and this one hands-down is the best office I've ever been to. They use this vibrating tool When they give you the numbing injection and you can't even feel anything. They really care about the comfort of the patient and of course the quality of service is outstanding. If I could leave this office more than five stars I would but don't take my word for it, you should go check them out if you need any dental work

My family changed to this dental office after having too much troubles from previous dental office. All of my family are happy with their service so far. The receptionists, the dental hygienists, the dental assistants and the dentist are all very professional and super friendly. The office is elegantly decorated and super clean. I highly recommend this dental office.

Absolutely amazing staff!!! Had an emergency and needed a tooth pulled, I called at 5:30 Tuesday evening they squeezed me in at 10:30 Wednesday, by 11:45 my tooth was out and I was on my way out the door. Very compassionate Dr and staff!! I don't go to the dentist because, well they hurt, they restored my faith! I will be going back. God bless y'all!!!

My husband came in today for an evaluation and needs quite a bit of work done. The office was very nice and clean. All the staff was very competent and friendly. Everyone made us feel at home. All the equipment is up to date and the doctor was very friendly and made my husband feel accepted. He seems very knowledgeable, patient and attentive. He made my husband's care a priority and wanted to make sure he gets treatment in a timely way. He really made my husband feel important. We both felt very confident having the whole team on our side!

Dr. Rawcliffe and Staff are the Best I have ever encountered with a Dentist. I am one of those patients that are very leery of Doctors. Trust me, I don't want to use up this review explaining why that iis, you may call me and I will explain ...

My first time visiting Prairie Star Dental I haven't been to the dentist in a while due to past experiences from my former dentist. Prairie Star was a 5 star as soon as I walked in. Everyone was polite and professional. The dental assistance was informative and she thoroughly explained every detail about what was needed regarding my teeth and gums
